TIGER INVITATIONAL
SCIENCE OLYMPIAD COMPETITION

Your school is invited to participate in the 6th Tiger Invitational Science Olympiad Competition on Saturday, February 9, 2013 at Northwestern Lehigh High School located at 6493 Route 309, New Tripoli, PA, 18066.

Teams should plan to arrive between 7:45 AM and 8:15 AM. Orientation begins at 8:30 AM, and events begin at 9 AM. We will award individual medals for 1st through 5th place for each event and trophies for the 1st- through 5th-place teams.

The registration fee is $80 for the first team, $50 for an additional team from the same school. Please make checks payable to the Northwestern Lehigh High School Science Club. Teams must register by Dec. 20, 2012. You do not need to register individual students' names, just your team. Teams registering after Dec. 20 may be charged a $15 late fee.

There is a limit of 30 teams. Last year, some teams were turned away, so register early. Please submit a roster for each registered team when you arrive at the competition. Each participating school must have verification that their teams are current members of the Science Olympiad program.

Schools may have more than one team participate as long as each team is appropriately registered with the national office. Non-participating students may attend, however adult supervision is required (in addition to the person running an event).

All rules for Science Olympiad competitions apply. Each school must provide an adult to run one event. Many events will be run in science lab rooms, so lab tables, sinks, and desks will be available. Events that need a lot of space will be run in the gym.

Please contact Dave Moyer to select an event to run or if you have special needs. We may need to ask a school bringing more than one team to run a second event, depending upon the number of schools participating. If you want to volunteer for a second event, you might want to do that early enough to get your choice of events.

All event supervisors must submit a digital copy of events (tests and keys) upon arrival. These will be compiled on CDs and made available to all teams (with all graded materials) at the end of the competition.

There are very few eating facilities nearby, and the schedule will not facilitate leaving the school for very long. Our Science Club will be selling food and snacks throughout the day. Schools will be provided with a homeroom to use throughout the day. Please keep all food in the cafeteria.

Teams that plan to stay overnight are encouraged to stay at the Hilton Garden Inn Allentown West.
They have guaranteed a special rate for our teams and will donate a small portion toward our Science Club Scholarship Fund. Please contact Ms. Deborah Panik at 610-298-6686 x 5002 or Deborah.Panik@hilton.com for hotel information.

For more information contact Dave Moyer at moyerd3@nwlehighsd.org or at 610-298-8931 x 2713.
