CABRINI COLLEGE

Overview of Cabrini College
Strategic Planning Process

Time Frame to be Covered by the Plan

- The scope of the plan is three years
- Academic years 2013-14, 2014-15 and 2015-16
- Fiscal years 2014 through 2016

Time Frame for the Planning Process

- December 2011 to February 2013

Outcomes of the Process

- A concise, succinct document that lays out strategic goals and priorities for the next three years. The first of two plans identifying strategic goals and priorities designed to move the College toward realization of the vision by 2020.
- Approval of the plan by the College's Board of Trustees

Guiding Assumptions

- The strategic planning process will be anchored in the institution progressing toward the working vision articulated by the President for the College: *Vision 2020: Cabrini College will be a college of first choice and a national model for excellence in forming leaders who advance the common good in their communities and the world.*
- The plan will be primarily driven by the educational programs and priorities that have been identified for Academic Affairs and Student Development – "the student experience will lead the way."
- Constituent engagement, open communication, attention to consensus building and transparency are critical to the development of a viable plan.
- The importance of faculty shared governance in higher education makes it imperative that faculty members be fully engaged in every stage of the planning process.
- The plan will advance work currently underway to move the College forward in identified strategic areas.
- The planning process will be informed by internal and external assessments and data directly relevant to efforts associated with emerging themes and focus areas.
